

VELVET BROWN PREPARATIONS

For SKIN and HAIR are the result of years of experiment and study by me.

The fact that I am a graduate in Medicine and Dentistry is a GUARANTEE that the best drugs, properly combined, are used in my preparations.

In less than a year on the market these goods have followed this Express and made good.

THE CREAM positively BLEACHES; removes every blemish, holds any powder perfectly all day and keeps the skin soft and tender as a spring violet.

Hair ruined by nature or harmful preparations responds readily to my GROWER. The PRESERVING OIL gives a fine gloss and is nearly smokeless.

USE these preparations and you will catch this smile.

MEETING AGAINST LYNCHING HELD IN NEW YORK.

(Continued from page 1.)

into the Republican party platform, Dwyer said, and the President was pledged to sign the bill when it came before the Senate. He said before this session was over. The constitutional duty of the law could not be impugned, he said, and its political prospects were now so good as to make its passage a certainty.

The act as outlined yesterday afternoon, provided for the following safeguards for the Negro:

When any citizen believes that cannot get justice in the courts that he cannot get justice in the courts of his own state he can appeal to the United States courts directly and the Supreme Court is obliged to hold the citizen coming to it for protection in its jurisdiction until it can be established whether justice can be obtained for the Negro in the local court. The Supreme Court must hear the case if it is established that the state court is prejudiced.

It will be a crime to allow a man to serve on a jury who is known to believe in lynching.

Officers of the law who allow mobs to take prisoners from their custody without making every possible effort to protect their captives are to be made guilty of a crime punishable by ten years' imprisonment. The United States district attorney is required to prosecute those officials if the local authorities will not do so.

Murder Charge Prohibited.
The law is to be amended so as to make it perfectly explicit that any person in a mob who has been shown to have taken part in a lynching can be charged with murder.

Citizens of a country where a lynching has taken place under the anti-lynching law shall pay to the United States Treasury \$10,000 for every death of a colored citizen by lynching or other unlawful means.

If the white citizens refuse to pay this fine, or the revenue officials will not collect it, the local district attorney shall levy on property in that country an amount equal to the fine or be guilty of an offense himself under the law.

Dwyer said that during the time Governor Montague was Governor of Virginia there were no lynchings in the state, because it was known that the state militia would have been called out by the Governor at the first hint of any move toward lynching by white people in the state. This he claimed, was proof that lynching would stop if the whites knew that penalties would be certainly inflicted on them for any illegal killing of Negroes.
